### The Land Talker says:

Greetings! June was more active with land auctions compared to the month of May. For year-to-date, there has been 26,836 acres offered at auction. For the second quarter, there were 10,198 acres offered at auction, down from 16,638 acres offered in the first quarter. Folks, this market is STRONG. Take a look at the table below, there were many sales that sold north of \$9,000/acre, \$11,000/acre, and \$13,000/acre. There has not been any "no sales" at auction for some time. The ultra-low supply of farmland for sale is making for a "sellers' market." As I visit with realtors across the state, most of the prices below exceeded expectations. It is my opinion that in most cases, land auctions are the best way to sell your farm. Let the market work for you. Please take this into consideration if you are thinking of selling land in the near future.

Talk to you in a month!  
Jim "the Land Talker"
